RENT EQUIPMENT FOR DIVE PHOTO/VIDEO, THE SOLUTION

by Massimo Boyer
(Field photo digital movie by Andrea Mescalchin)

"I'm leaving for the Maldives and I'd like to take home some souvenirs but without investing monstrous sums in the purchase of diving equipment. My smartphone takes beautiful photos, if I could I would gladly wear it."

"I would like to start doing underwater photography but the total expense scares me to buy equipment. If I could, I'd dive into my action camera and test it thoroughly before deciding whether to buy everything."

"I'm a professional, I have to shoot pictures underwater in the sea or

in the pool but I wouldn't want to have to buy underwater photographic equipment, which I will probably never use again."

You would like to start well with underwater photography but you are worried about the substantial investment that it requires, you are about to leave for a trip to the Maldives and you would like

suit your smartphone that gives you beautiful photographs to use as a souvenir, or are you a professional and do you need underwater photographic equipment for a job that you may not need anymore?

Good news for all these cases: from today all this becomes possible and at reasonable prices. Today a website is born, ***diverent.it***, which immediately represents the simplest way to rent equipment and have it immediately ready for top performance in the production of underwater images.

1. In three very simple steps, the site allows you to rent underwater photographic equipment. The first point is the choice of the equipment you

need: housing, housing and lights or lights only. The site guides you step by step in choosing the most convenient equipment for you, selected from the latest EasyDive cases and from Carbonarm torches and arms.

2. The second point concerns the compilation of your personal data reduced to the bone and simplified for use on the web, so as not to waste your time. But Diverent needs to know where, when and who to ship to, right?

3. At this point we are done and all we have to do is wait for delivery of the material.

Note: Easy Care is the security deposit necessary to rent the equipment, the security deposit guarantees that the product is protected against damage caused by the renter and the amount will be refunded in full upon return, if there are no damages found .

Furthermore, at the end of the rental, Diverent offers you a discount voucher, for the value of the rental service, valid for the purchase of a case or a lighting system from the Easydive range. The discount voucher can be used no later than the same day of returning the material.

What are you waiting for? If you still have doubts, contact ***diverent.it***, and ask its staff directly.
